The screenshot shows the SpringerLink website interface. At the top left, the URL 'link.springer.com' is highlighted in an orange box, with a callout bubble pointing to it containing the text 'URL: link.springer.com'. The main header features the SpringerLink logo, a search bar, and navigation links for 'Sign up / Log in', 'English', and 'Academic'. Below the header, there are navigation links for 'Home' and 'Contact Us', and a link for 'Access old SpringerLink'. The main content area is divided into two columns. The left column is titled 'Browse by discipline' and lists various scientific fields with expandable arrows. The right column features a large text block stating 'Providing researchers with access to millions of scientific documents from journals, books, series, protocols and reference works.' Below this text are two book covers: 'EPJ C Particles and Fields' and 'Model-Based Testing of Reactive Systems'. A purple callout box to the right of the book covers says 'New books and journals are available every day.' At the bottom, there is a section titled 'Recent Activity' with a sub-heading 'What's being read within your organisation'.

Abstract **(4)**

Shell has been using scenario planning for 40 years to help deepen its strategic thinking. Developing and applying scenarios is part of an ongoing process in Shell that encourages decision-makers to explore the features, uncertainties, and boundaries of the future landscape, and engage with alternative points of view.

The scenarios go beyond conventional energy outlooks and consider long-term trends in economics, energy supply and demand, geopolitical shifts and social change. They are based on plausible assumptions and quantification, and include the impact of different patterns of individual and collective choices.

Shell's latest scenario publication, the *New Lens Scenarios*, published in 2013, provides an in-depth analysis of how economic, social and political forces might play out over the twenty-first century, as well as their consequences for the global energy system and environment. Its
